

CUMBERLAND-COLCHESTER
Sustainable Forestry Practices

WHEREAS our standing forests are a valuable resource that produce agricultural products such as maple products; and

WHEREAS careful selective forestry harvesting produces a variety of hardwood and softwood forestry products; and

WHEREAS fibre harvesting currently results in large scale and potentially non sustainable forestry practices such as clear cutting;

THEREFORE BE IT RESOLVED that a Liberal Government will encourage the production of fibre from agricultural crops other than forest products;

THEREFORE BE IT FURTHER RESOLVED that a Liberal Government will make policies to encourage sustainable forest harvesting by means other than clear cutting.
