

## **SACKVILLE-PRESTON-CHEZZETCOOK**

### **Construction and Demolition Materials Processing Facilities**

---

**WHEREAS** the processing of construction and demolition materials can cause environmental concerns such as poor air quality, noise pollution, contamination of natural water ways, and drinking water; and

**WHEREAS** there are no adequate existing municipal or provincial regulations governing the construction, operation or inspection of C & D facilities; and

**WHEREAS** this has a high potential for risk to the environment, humans, wildlife as well as the sustainability of communities; and

**WHEREAS** it is the duty of the elected officials in all levels of government in Nova Scotia to ensure that all residents have an inherent right to clean air and water; and

**THEREFORE BE IT RESOLVED** that the provincial government establish a moratorium on the construction of any new C & D Facilities until such time as appropriate legislative and regulatory requirements are established.
